

# GCSE - GEOGRAPHY

DATE	YEAR 10	YEAR 11
Week 1	What is a landscape? What makes landscape distinctive?	Revision of key concepts linked to ecosystem
Week 2	Where are the physical landscapes of the UK? The climate of the UK and distinctive landscapes	Year 10 Mock QA Polar environment – key characteristics
Week 3	How does geology influence the landscape of the UK?	Polar environment – sustainable management CPT 1 – Ecosystems
Week 4	DL (C) CHECKPOINT TASK 1 Geomorphic processes shaping coastal landscape	Global circulation systems + extreme weather conditions e.g. wind, temp and precipitation
Week 5	Constructive coastlines, LSD and Spit	Distribution and frequency of tropical storms and causes Case study – Typhoon Haiyan
Week 6	What makes the Holderness coastline distinctive?	CPT 2 – Tropical Storms and Ecosystems Distribution and frequency of drought and causes linked to El Nino/La Nina
Week 7	Holderness coastal management DL (C) CHECKPOINT TASK 2	Case study: UK Heatwave 2018 Structure of the Earth and convection currents
Week 8	Geographical Skills – preparation for fieldwork questions	Plate tectonic boundaries and hot spots – how movement causes earthquakes and volcanoes
Week 9	Global patterns of urbanisation	Tectonic event case study Mitigation strategies
Week 10	Rapid urbanisation in LIDCs	How has increasing demand for resources affected Earth? Dynamic development interleaving questions (13)
Week 11	Urban morphology and function	Food security, world patterns and theories Global hazards case studies interleaving questions (13)
Week 12	Suburbanisation, Re-urbanisation and Counter-urbanisation	Food security, world patterns and theories Urban Futures interleaving questions (15)
Week 13	Sustainable cities characteristics	Case study: attempts to achieve food security – Tanzania River landscape interleaving questions (13)
Week 14	Leeds in-depth case study	Ethical consumerism, organic/intensive farming/GM crops and 'bottom up' e.g. urban gardens Coastal landscape questions interleaving questions (13)
Week 15	Leeds in-depth case study	Paper 3 Walkie Talkie Mock – using specimen paper Ecosystems interleaving questions (13)
Week 16	Istanbul in-depth case study	MOCKS Be prepared for rainfall, water scarcity and mgt
Week 17	Istanbul in-depth case study	
Week 18	Geographical Skills – preparation for fieldwork questions Coastal landscape questions	What does the UK look like in the 21st Century? UK cultural influence
Week 19	Hydrological cycle, drainage basin and storm hydrographs	How is the UK population changing? DTM, pyramids and ageing population. Paper 3 Mock (UK housing shortage and water mgt)
Week 20	River Tees and landforms	How population structure has changed in a named place? Resource Reliance interleaving questions
Week 21	Impact of human activity on River Tees landscape	Economic change in the UK since 2001 and Economic Hubs UK in the 21st Century interleaving questions (20)
Week 22	Virtual rivers fieldwork Urban Futures AC questions (20)	UK role in the world and UK political role in one conflict Global hazards interleaving questions
Week 23	Virtual rivers fieldwork	What evidence is there for climate change? Dynamic development interleaving questions

# GCSE - GEOGRAPHY

DATE	YEAR 10	YEAR 11
Week 24	Defining development/Global distribution of ACs, EDCs and LDCs Urban Futures EDC questions (20)	Is climate change a natural process? Distinctive landscapes interleaving questions
Week 25	Measuring development/uneven development reasons	Why is climate change a global issue? Urban futures interleaving questions
Week 26	Zambia – will LDCs remain poor?	Exploring impacts of climate change within the UK Climate change interleaving questions
Week 27	Zambia – will LDCs remain poor?	Geographical Skills Paper (1 hour) Human Fieldwork and Revision
Week 28	Zambia – will LDCs remain poor?	Diagnostic revision informed by interleaving
Week 29	Zambia – will LDCs remain poor?	Paper 1 Mock
Week 30	Dynamic Development exam questions	Paper 2 Mock
Week 31	Revision	Diagnostic revision informed by mocks
Week 32	Revision	Diagnostic revision informed by mocks
Week 33	Revision	Diagnostic revision informed by mocks
Week 34	Year 10 KEY ASSESSMENT	Paper 1: Our Natural World 11 June pm (1 hour 10 min)
Week 35	What is an ecosystem? Global distribution of Biomes	Paper 2: People and Society 16 June pm (1 hour 10 min)
Week 36	Tropical Rainforest –Interdependence climate, soils, vegetation	Paper 3: Geographical Exploration 23 June am (1 hour 30 min)
Week 37	Tropical Rainforest – sustainable management	
Week 38	Polar regions – key characteristics and sustainable management
