**Miss Adams**  
Assistant SENCo lead  
for KS4  
[ajesudasen-adams@catmosecollege.com](mailto:ajesudasen-adams@catmosecollege.com)

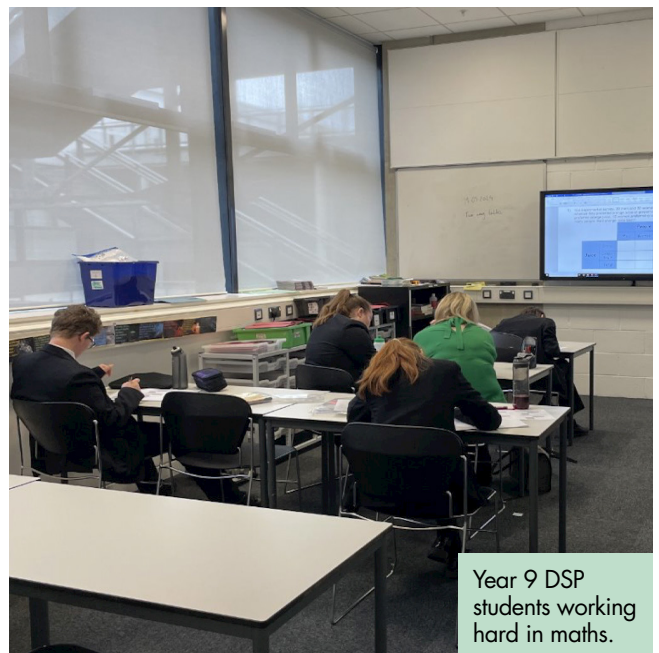

## ACADEMIC UPDATES

This term we have started Year 7 and 8 reading and maths intervention to support our students.

### Exams

Practical exams for Art and Design and Food Preparation and Nutrition have begun so it feels like an appropriate time to wish our students good luck with their examinations.

Please be reminded that the formal examination timetable can be found here: <https://www.catmosecollege.com/exam-administration/>

Year 9 DSP  
students working  
hard in maths.

### Year 9 Options

Year 9 students have recently had the opportunity to attend an options evening to help make the final choices for their GCSE subjects. We look forward to the exciting work that they will create over Year 10 and 11.

## EXTRACURRICULAR

As a team we are always thrilled to hear what our students have been doing in and out of the classroom.

- Students across the College setting have been working tirelessly to create the spooky and kooky, 'The Addams Family' show. Well done for your dedication in the rehearsal and performance process.

- The SENCO team are impressed with how our students conduct themselves.

- A Year 11 DSP student presented their experiences of 'what is great about Catmose' to governors at the end of term meeting.

- We would also like to congratulate Charles on his Husky Racing success (above right).

- Through the Electives programme, students have tried a range of enrichment opportunities to enhance their education experience. We were impressed with the consideration taken to stitch with accuracy (left).

## PHOTOS FROM THE SPRING TERM

Each week, the SEND team share photos to celebrate the success of our students. This term, we have chosen to share some of the images to showcase the amazing curriculum and enrichment opportunities our students access.
