

GCSE - GEOGRAPHY

DATE	YEAR 10	YEAR 11
Week 1	What is a landscape? What makes landscape distinctive?	Link to prior learning – How can tectonic movement be hazardous? / Structure of the Earth
Week 2	Geological landscape of the UK – uplands and lowlands.	Plate tectonic boundaries and hot spots – how movement causes earthquakes and volcanoes
Week 3	How does geology influence landscapes?	CPT 1 – Tectonic plate boundaries LA PALMA case study – causes/effects/responses
Week 4	Influence of glaciation and skills-based questions	Earthquake characteristics/tectonic mitigation Scaffolded 2023 Paper 3 Sections – Mexico City
Week 5	DL (C) CHECKPOINT TASK 1 Geomorphic processes shaping river landscape	CPT 2 – La Palma questions Global circulation system + extreme weather conditions e.g., wind, temp and precipitation.
Week 6	River Tees downstream changes and upper course characteristics and landforms	Distribution and frequency of tropical storms and causes Dynamic development interleaving questions (13)
Week 7	River Tees middle course characteristics and landforms DL (C) CHECKPOINT TASK 2	Case study – Typhoon Rai causes/effects/responses Urban Futures interleaving questions (15)
Week 8	River Tees lower course characteristics and landforms. Map skills activities.	Distribution and frequency of drought and causes linked to El Nino/La Nina CPT 3 – Global circulation and extreme weather
Week 9	River Tees impact of human management	Case study: UK Heatwave 2022 or 2026! River landscape interleaving questions (13)
Week 10	Virtual river fieldwork based around previous GCSE exam questions	Triple: Role of the UK in world today/conflict Double: Role of the UK in Ukraine conflict Coastal landscape questions interleaving questions (13)
Week 11	Global patterns of urbanisation e.g., mega cities & world cities and different urban growth rates	Triple: UK population density and housing supply Double: UK media influence Ecosystems interleaving questions (13)
Week 12	Rapid urbanisation in LIDCs	Triple: DTM and UK population characteristics Double: UK cultural influence – Chinese food Global hazards case studies interleaving questions (13)
Week 13	UF CHECKPOINT TASK 1 Istanbul in-depth case study	MOCKS
Week 14	Leeds or Bristol in-depth case study	
Week 15	Yr10 CP1 QA Leeds or Bristol in-depth case study	Triple: UK Ageing Population Double: UK Ageing Population
Week 16	Leeds or Bristol in-depth case study	Mock debrief lessons and targeting marginal gains in terms of exam technique
Week 17	Suburbanisation, Re-urbanisation and Counter-urbanisation UF CHECKPOINT TASK 2	Triple: EU Immigration and Boston Double: Economic changes in the UK
Week 18	Different types of waves, LSD and recap processes	Triple: Economic changes in the UK including work patterns Double: Economic Hubs – Paper 3 style questions
Week 19	What makes Holderness distinctive? Headlands and bays & cave, arch, stack and stump.	Triple: Oxfordshire economic hub case study Double: Exam technique
Week 20	What makes Holderness distinctive?	UK in the 21st Century Checkpoint questions Triple: Define, Factors and Measuring food security Double: Food security theories
Week 21	Holderness – Human management and exam technique	Triple: Case Study – attempts to achieve food security Double: Resource Reliance exam technique
Week 22	Virtual coastal fieldwork – structured around GCSE exam questions rather than virtual enquiry.	UK in the 21st Century interleaving questions Triple: UK rainfall patterns and water stress Double: Water transfer schemes

GCSE - GEOGRAPHY

DATE	YEAR 10	YEAR 11
Week 23	Human fieldwork – Peterborough	UK in the 21st Century interleaving questions Triple: What is climate change and evaluating evidence Double: Enhanced greenhouse effect
Week 24	Preparation for human fieldwork questions	Dynamic development interleaving questions Triple: Exam technique and UK climate change impacts Double: Global impacts of climate change
Week 25	Preparation for human fieldwork questions	Distinctive landscapes interleaving questions Triple: Exploring GIS and evaluating global impacts Double: Climate change mitigation and synoptic links
Week 26	Zambia – will LICs remain poor?	Triple: MOCK Paper 3 – 2026 Paper Double: Diagnostic Revision
Week 27	Zambia – will LICs remain poor?	Diagnostic revision
Week 28	Zambia – will LICs remain poor?	Diagnostic revision
Week 29	NON-CORE MOCKS	Diagnostic revision
Week 30	Zambia – will LICs remain poor?	Diagnostic revision
Week 31	Zambia – will LICs remain poor?	Paper 1 Our Natural World
Week 32	Physical fieldwork – Bradgate Park	Paper 2 People and Society
Week 33	Preparation for physical fieldwork questions	Paper 3 Geographical Exploration
Week 34	Preparation for physical fieldwork questions	
Week 35	Triple: What is an ecosystem and diff biomes Double: Food chains and food webs	
Week 36	Double: Sustainable management of TRF Triple: Polar ecosystem and human impacts in Arctic	
Week 37	Triple: Global sustainable mgt of Antarctic Double: Local sustainable mgt of Antarctic	
Week 38	Review and reflect
